4 of 8 stages done

The website and online applications are live on symanekacademy.com. The Suite is secure, loaded with the college's data, and the lecturer/student tools passed a full end-to-end test.

Now: pilot with one class

One lecturer and 3–5 students use the portal for about 5 days, then tell us what to improve. Guide: "Pilot Test Guide" (PDF).

What we need from Symanek

The 5 pilot answers · emails of 4 lecturers · who teaches Nutrition & Dietetics · EduCIMS export and decisions · letterhead and signature for official letters.
