suite.vercel.app

TIME NEEDED
About 45–60 minutes

YOU NEED
**A computer and a
phone**

HELP
Pedro on WhatsApp

What you will do. As administrator you create one test lecturer and one test student, give them access, and then sign in *as each of them* to check that everything a real lecturer and a real student will do works: attendance, notices, study materials, assignments, marks, feedback and questions.

Why this is safe. The test uses the **Certificate in Nutrition and Dietetics**, which has no students and no lecturer yet, so no real class, mark or lecturer is touched. The test lecturer and student do not need real email accounts — nothing is sent by email. When you finish, tell Pedro and he removes all test data.

Use exactly these test details

ITEM	VALUE TO TYPE / CHOOSE
Test lecturer — name	Test Lecturer
Test lecturer — email (username)	test.lecturer@symanekacademy.com
Test student — name / student no.	Test Student / TEST0001
Test student — email (username)	test.student@symanekacademy.com
Programme	Certificate in Nutrition and Dietetics
Module to allocate to the test lecturer	ANPH402 – Human Anatomy and Physiology for Nutrition
Intake / academic year / year of study	January / 2026 / 1

Three windows, three people

The Suite remembers one signed-in person per browser, so keep the three roles apart like this:

1 · Administrator

You. Your normal browser window on the computer.

2 · Test lecturer

A **private / incognito** window on the computer (Chrome: **Ctrl** + **Shift** + **N**).

3 · Test student

Your **phone** — this is how most students will use the portal.

A Your own access

WINDOW 1 · ADMINISTRATOR

- 1 Open **symanek-suite.vercel.app** and sign in with the email and temporary password Pedro sent you (**jeremiaf@symanekacademy.com**).

EXPECT

☐ A screen "Choose your password".

- 2 Type a new password twice and click **Save and continue**.

EXPECT

☐ The Suite opens with the full menu on the left.

B Set up the test lecturer and student

WINDOW 1 · ADMINISTRATOR

- 3 **Programmes** > tab **Lecturers** > **+ Add lecturer**. Full name **Test Lecturer**, email **test.lecturer@symanekacademy.com**, job title **Lecturer**, department **Test** > **Save**.

EXPECT

☐ "Test Lecturer" appears in the staff list, Suite login "None".

- 4 On the Test Lecturer row click **Grant Suite access** > Workspace **Lecturer** > **Grant access**. Click **Copy message** and paste it somewhere (e.g. WhatsApp to yourself) — you need the **temporary password**.

EXPECT

☐ A box with the username and a temporary password. Suite login becomes "Active".

- 5 Scroll down to **Module allocation**. Filter the programme **CERTIFICATE-NUTRITION-DIETETICS-LEVEL-4**. On **ANPH402** choose **Test Lecturer** in the Lecturer column > **Save allocation**.

EXPECT

☐ "Allocation saved (1)". Test Lecturer shows 1 module.

- 6 **Students** > tab **Register** > **+ Add student**:
 - Full name **Test Student**, Student no. **TEST0001**, email **test.student@symanekacademy.com**
 - Programme **Certificate in Nutrition and Dietetics**, Status **Enrolled**, Year **1**
 - Intake **January**, Academic year **2026** > **Save student**

EXPECT

☐ Test Student appears in the register.

- 7 **Programmes** > tab **Cohort Enrolment**. Find **Certificate in Nutrition and Dietetics — January 2026** (1 student) > **Enrol...**. Check the preview > **Confirm enrolment**.

EXPECT

☐ Preview: 1 student, 16 modules, 16 new registrations. Registrations column then shows 16.

- 8 **Students** > tab **Student 360** > select **Test Student** > **Grant portal access** > **Copy message** and keep the temporary password.

EXPECT

☐ A box with the student's username and temporary password.

- 9 Open a private window > **symanek-suite.vercel.app** > sign in as **test.lecturer@symanekacademy.com** with the temporary password > choose a new password.

EXPECT

☐ Menu shows only Lecturer Portal, Courseware, Library.

- 10 **Lecturer Portal**: look at **My modules** at the top.

EXPECT

☐ Only **ANPH402**, with (1) student. No other college modules.

- 11 Tab **Attendance**: Test Student is ticked "Present" > **Save register**.

EXPECT

☐ "Register saved"; attendance 100%; today's date under Sessions recorded.

- 12 Tab **Class Board**: title **We lcome**, a short message > **Post notice**.

EXPECT

☐ The notice appears under "Notices on this module".

- 13 **Courseware** > **Materials** > **+ Add material**: a title and any PDF or Word file from the computer > **Publish**.

EXPECT

☐ The material is listed; **File** opens it.

- 14 **Courseware** > **Assignments** > **+ New assignment**: title **Test assignment**, instructions, a due date next week, total marks **10** > **Publish**.

EXPECT

☐ The assignment is listed with "Submissions (0)".

D Study as the student

WINDOW 3 · PHONE

- 15 On the phone open **symanek-suite.vercel.app** > sign in as **test.student@symanekacademy.com** with the temporary password > choose a new password.

EXPECT

☐ Menu shows only Student Portal and Courseware.

- 16 **Student Portal** > tab **My Studies**: look at **My modules**.

EXPECT

☐ 16 modules; ANPH402 shows "Test Lecturer" and 100% attendance.

- 17 Tab **Announcements**.

EXPECT

☐ The "Welcome" notice, tagged ANPH402.

- 18 **Courseware** > choose module **ANPH402** > **Materials** > **File**.

EXPECT

☐ The lecturer's document opens on the phone.

- 19 **Assignments** > **Submit** > attach a photo or file (take a photo of any page) and/or type an answer > **Submit**.

EXPECT

☐ "Submitted"; status shows the date and file name.

- 20 **Student Portal** > tab **Ask Lecturer**: module ANPH402, a subject and a question > **Send**.

EXPECT

☐ The question appears under "My questions" as **Waiting**.

E Mark and reply as the lecturer

WINDOW 2 · PRIVATE WINDOW

- 21 **Courseware** > **Assignments** > **Submissions (1)**: open the student's file, give a mark (e.g. 8) and feedback > **Save**.

EXPECT

☐ The file opens; "Saved — Test Student"; badge "Graded".

- 22 **Lecturer Portal** > tab **Student Queries** > **Reply** > write an answer > **Send reply**.

EXPECT

☐ The query changes to "Answered".

- 23 Tab **Marks**: CA **60**, Exam **55** > **Save marks**.

EXPECT

☐ "marks saved (provisional)"; final 58%.

Do **not** click "Submit to exam board" — that publishes and locks the mark.

F Check the results as the student

WINDOW 3 · PHONE

24 Courseware > ANPH402 > Assignments.

EXPECT

☐ "Graded 8/10" and the lecturer's feedback; Resubmit is no longer offered.

25 Student Portal > Ask Lecturer.

EXPECT

☐ The question shows **Answered** with the lecturer's reply.

26 Student Portal > Grades & Transcript.

EXPECT

☐ ANPH402 with CA 60, Exam 55, final 58%, badge **Provisional**.

G Quick checks as administrator

WINDOW 1 · ADMINISTRATOR

27 **Students** > Register > **Edit** on Test Student > change the phone number > **Save student**.

EXPECT

☐ The new phone number is shown.

28 **Programmes** > **Lecturers** > Test Lecturer > **Remove login** > confirm. Then try to sign in again as the test lecturer in the private window.

EXPECT

☐ The login is refused — access can be withdrawn at any time.

Results — please send this page to Pedro

Tick OK or Problem for each part. For any problem, note the step number and send a screenshot on WhatsApp.

PART	WHAT WAS TESTED	OK	PROBLEM	NOTES (STEP NUMBER, WHAT HAPPENED)
A	My own sign-in and new password	☐	☐	
B	Add lecturer, give access, allocate module, add student, enrol class, give portal access	☐	☐	
C	Lecturer: own module only, attendance, notice, material, assignment	☐	☐	
D	Student: modules, notice, material, submit from phone, ask a question	☐	☐	
E	Lecturer: open submission, mark + feedback, reply, provisional marks	☐	☐	
F	Student: sees mark, feedback, reply and provisional marks	☐	☐	
G	Edit a student; remove a lecturer's login	☐	☐	

Overall

How easy was it to use? (1 = very difficult · 5 = very easy)

12345

Anything confusing, slow or missing?

Ready to run the pilot with one real class?YES / NO — because:

Tested by / date

When you finish: tell Pedro. He removes the Test Lecturer, the Test Student, their files, marks and messages, and clears the ANPH402 allocation, so the system is clean for the real pilot.
